PROFILE

Brief Description

Pacific Interconnections Group consists of Pacific Interconnections LLC (PI) located in Washington USA, Pacific Technical Sales Co. (new name: Pacific Interconnections (HK) Ltd. (PIHK)) in Hong Kong, and Pacific Opticonnect Co. Ltd. (POC) in Shenzhen China. The group conducts businesses in a broad range of fiber optic and communication passive products, equipment, various fiber optic cable accessories, and even provides optical and electronic engineering solutions. PI of Washington USA involves with marketing and sales of the above products and items in North America, and the procurement of related products and items for its Hong Kong branch and Shenzhen Plant. Its manufacturing and R&D arm, POC of China, is ISO9001 and ISO14000 certified. Together with PIHK of Hong Kong, we have an international network for the production, R&D, supply, and sales of quality and low priced products to customers in North America, South America, Central America, Europe, Asia, and the Middle East.

Other than the products listed above, we also manufacture to customers' specifications and requests even with customer supplied raw materials and parts.

Company History

Pacific Technical Sales Co. (new name: Pacific Interconnections(HK) Ltd. (PIHK)) was founded in Hong Kong in 1992. PIHK was into fiber-optic and communications business selling Corning optical fibers, fiber-optic cables, inspection equipment, electro-optical transmitter/receiver modules, and fiber-optic jumper cables and related products. Followed by this, Pacific Interconnections LLC (PI) was established in Renton Washington in 1993 as an import and export company engaged in the sales of optical fibers, fiber-optic cables, and related products to customers in China and Asia. To expand the market in patch cords, optical distribution frames, and other cable accessory products, Pacific Opticonnect Co., Ltd. (POC), was established in China in year 2000 to manufacture products cost-effectively to customers in the world. POC was ISO 9001 and 1400 certified in 2006 to establish a foundation in product manufacturing and quality excellence.

Our Goals and Objectives

The main goals and objectives are to manufacture quality products, to conduct timely delivery of products, and to provide the best customer services economically to yield the maximum return of value for our customers. Innovation is also PI's long-term goal. We continually deploy resources with creative concept to perform engineering researches and new product developments to expand and improve our product portfolio.

Our Services

Our services include the sale of fiber-optic raw materials, passive components, cable accessories, cable management products, optical and electronic engineering services, and total engineering solutions including applications for MCU and sensors for consumer electronics, industrial control and appliances. Besides standard items, custom-made products to specifications are also provided.

Our Products

We carry a broad range of products listed as below:

1. Fiber optic patch cords:
 - FC, SC, ST, LC, MU, MTRJ, DIN, ESCON, and D4, etc.
 - G655 fiber, LSZH and Hytrel cables are also available
2. Specialty patch cords:
 - Ribbon and MIC fan-out patch cords/pigtails
 - MTP/MPO patch cords
 - Mode conditioning patch cords
3. Fiber optic connectors:
 - FC, SC, ST, LC, MU, MTRJ, etc
 - Ceramic ferrules
 - Single mode and multimode
4. Fiber optic adapters
5. Attenuators:
 - Doped fiber
 - Fixed attenuation values
6. Optical distribution frames:
 - Rack systems
 - Rack-mount splice & distribution enclosures
 - Outdoor cabinets
 - Wall-mount splice & termination boxes
 - Rack-mount splice & termination boxes
7. Equipment and tools:
 - Pneumatic crimper
 - Interferometer
8. Fiber optic closures
9. Couplers and WDMs:
 - Standard couplers
 - Wideband and dual wavelength couplers
 - Polarization independent couplers
 - Tree and star couplers
 - Standard and high isolation WDMs
 - Specialty wavelength WDMs
10. Accessories:
 - Furcation tubes
 - Cable markers

Quality Standards

Our associated manufacturing company follows strict international standards such as IEC, CECC, Telcordia, and YD/T to satisfy our customers' demanding requirements for the best quality products. Our certified ISO 9001 and 14000 Quality Assurance System is in place to assure the quality of products. This Quality System starts with assuring the use of the best quality materials by working with and using reliable and reputable suppliers and maintaining adequate receiving inspection to weed out poor quality materials. It also emphasizes the build-in of quality during the production process by utilizing the best equipment, highly trained workers, and most advanced inspection devices. This well-tested Process Control System eliminates defects in process and thus constantly produces good quality products.

Customers and the Market

Our market and customers can be categorized into four areas:

1. Telecommunications, Networking, and Cable TV:
Supplied products include fiber-optic patch cords, attenuators, adaptors, optical distribution frames, interconnect cables, etc.
2. Patch cord manufacturers:
Supplied products include fiber-optic cables, ferrules, connectors, part kits, furcation tubes, polishing machines, and tools.
3. Original Equipment Manufacturers (OEM):
Supplied products include subcontract work assemblies with customer-supplied materials.
4. Equipment and appliance manufacturers
Provided sensor application solutions and engineering services, including applications for MCU and sensors for consumer electronics, industrial control and appliances.
